

## Colas Solutions Hires Recycling Expert

Effective September 1, 2011 Todd Thomas joined the staff of Colas Solutions, Inc. (CSI) as Technical Service Engineer. In his new role Todd will be concentrating on development and implementation of Recycling, Reclamation and Stabilization programs. He will be located in Cincinnati and will report directly to Roger Hayner, President of CSI.

Todd has a long history of involvement in the asphalt and pavement preservation industry and is nationally recognized as an expert on Recycling. Prior to joining CSI, he served as the Product Commercialization Leader for Road Science in Tulsa, OK, leading development and implementation of their recycling, pavement preservation and hot mix asphalt products. He was with Road Science and its predecessors, SEM and Koch Materials, for a total of 16 years.

Todd brings experience in a wide range of pavement preservation areas, particularly Cold In Place Recycling, Full Depth Reclamation and Soil Stabilization. He presently serves as chairperson of the Technical Review Committee and vice chairperson of the Committee on Recycling Education for the Asphalt Recycling & Reclaiming Association (ARRA). He has also served since 2002 as the Liaison for ARRA to the FHWA Pavement Preservation Expert Task Group. He is the author of numerous papers and presentations, most involving pavement recycling and he is a Professional Engineer in the states of Kansas and New Mexico, with NCEES registration. He holds BS and MS degrees in Civil Engineering from Purdue University.

Todd and wife Kristi have 2 sons, Nathan and Stephen, ages 10 & 12. Please join us in welcoming Todd to the Colas group.
